WORK EXPERIENCE

Site-Reliability Engineer Co-Op

May 2024 – Aug. 2025

ecobee | Toronto, ON

- Utilized Infrastructure as Code to develop and deploy company-wide cloud resources that reduced costs and improved internal system functionality.
- Automated system processes and alerting, leading to faster detection and resolution of incidents.
- Collaborated with developers and leadership to optimize applications for high availability, fault tolerance, and scalability.

Operations Analyst Co-Op Student

Apr. 2023 – Dec. 2023

Medline Canada | Guelph, ON

- Received recognition for developing robotic process automation (RPA) applications to improve warehouse productivity, and for learning various RPA platforms to evaluate their benefits to the company.
- Trained over 50 colleagues across Canada on RPA applications that facilitate warehouse processes.

Programming Mentor

May 2022 – Aug. 2022

University of Toronto Engineering Academy (UTEA) | Toronto, ON

- Developed virtual lessons on C and Python for 200 students and received recognition for outstanding content delivery.
- Hosted virtual information sessions on campus life and resources to aid students in their transition to university which earned gratitude from students.

EXTRACURRICULARS

Content Creator

Apr. 2025 - Present

University of Toronto Engineering External Relations | Toronto, ON

- Founded and realized a new club podcast which increased club publicity and strengthened external relations.
- Collaborated with a marketing team to create promotional social media content, effectively increasing engagement and following size.

Events Director

Apr. 2024 - Present

Filipino Engineering Association of Students in Toronto | Toronto, ON

- Collaborated with a team to plan and host social events ranging from 30-100 guests, all of which achieved positive feedback and an increase in turnout at subsequent events.
- Communicated with vendors to provide food and supplies within a tight budget.

Videography Subcommittee Co-Chair

May 2023 – Oct. 2023

University of Toronto Engineering Freshman Orientation Committee | Toronto, ON

- Organized and executed the production of promotional videos which achieved high engagement on social media.
- Coordinated a team of over 50 subcommittee members during orientation week to ensure adequate video coverage of events.
